Application for New Noncommercial)
Educational FM Station)

File No. BPED-19981208MH

SUPPLEMENT TO PETITION FOR RECONSIDERATION

Minnesota Public Radio ("MPR"), by its attorneys and pursuant to Section 1.106(f) of the Commission's rules, hereby supplements the petition for reconsideration, dated April 12, 2000, of the April 3, 2000 letter of the Mass Media Bureau Audio Services Division returning the above-captioned application for a new noncommercial educational FM station in Fergus Falls, Minnesota. The purpose of this supplement is to reduce the power of the proposed station to 2.0 kilowatts. No other changes are proposed.

MPR believes that the application as originally filed, and as amended on April 12, fully complies with the Commission's Rules. Nevertheless, MPR is submitting this supplement out of an abundance of caution in order to facilitate prompt consideration of the proposal.

Respectfully submitted,

MINNESOTA PUBLIC RADIO

CERTIFICATE OF AMENDMENT

Minnesota Public Radio hereby amends its application for a construction permit for a new non-commercial educational FM station at Fergus Falls, Minnesota, FCC File No. BPED-19981208MH, by changing its response to question 13(a), Section V-B, of the FCC Form 340, to 2.0 kilowatts effective radiated power.

Respectfully submitted,

MINNESOTA PUBLIC RADIO
