Facility ID No. 42907
Minnesota Public Radio (FRN 0002-6425-10)
License File No BLFT-990730TC
Correction to FCC database necessary

Dear Ms Dortch:

On October 29, 1999, the Commission granted MPR a license to change the channel of this translator to 297 (frequency 107.3). A copy of the signed license that we received is enclosed with this letter. As you will see, it indicates the correct channel and frequency.

Also enclosed are copies of the authorization that I pulled yesterday from the FCC's on-line database, along with an FCC search query for this facility. As you will see, both the on-line authorization and the search results show that frequency of this facility is 107.7 and the channel is 299. This is incorrect. K297AH is operated on 107.3, channel 297.

Please correct the Commission's database.

Please stamp and return the enclosed duplicate designated for that purpose. Should there be any questions concerning this filing, feel free to contact me at 651-290-1259 or at mgramling@mpr.org.

Sincerely,

Mitzi T Gramling
Associate General Counsel
